The Crazy Potter
Linda Wilson

02 October 2007

Dear Cheryl,

I would like to thank you and all the other inspirational women in the LWEW organization for enabling me to be a beneficiary of the "Take The Next Step" grant. I see this as a huge honor and also an exceptional opportunity for both me and my business to grow from this experience.

It has taken me ten years of long hard work, times of absolute dejection and times -more recently - of seeing my business grow and flourish. I almost gave up three times along the way, but my stubborn personality made me make the right choice – to stick with it and see it through.

I find it an absolute joy to get up in the mornings and go to work, to look around me and see the fruits of my labor and also to see my staff enjoying their work and working environment and growing as people as they learn new skills and become more confident about their abilities.

The prize money from the Grant will allow me to grow my business quicker than I had planned, and help put me firmly on the path to becoming one of the inspirational and successful women I was privileged to meet at the LWEW business forum on 14 September in Pretoria.

Kind regards,
Linda Wilson
